Product fiche pursuant to Delegated Regulation (EU) no. 1059/2010

Supplier's Name or Trade Mark Model DIS15012 Capacity 10 Energy efficiency class A+ EU Ecolabel (If applicable) Annual Energy Consumption - "Energy consumption xx kWh per year, based on 280 standard cleaning cycles using cold water fill and the consumption of the low power modes. Actual energy consumption will depend on how the appliance is used" Energy Consumption (E t) of the standard cycle Power consumption in off-mode and left-on mode (P o and P I) O.50 / 0.52 Annual Water Consumption (litres per year). "Water consumption x litres per year, based on 280 standard cleaning cycles. Actual water consumption will depend on how the appliance is used Drying Efficiency Class. "Drying efficiency class X on a scale from G (least efficient) to A (most efficient)	Dishwasher	Answer
Model Capacity 10 Energy efficiency class EU Ecolabel (If applicable) Annual Energy Consumption - "Energy consumption xx kWh per year, based on 280 standard cleaning cycles using cold water fill and the consumption of the low power modes. Actual energy consumption will depend on how the appliance is used" Energy Consumption (Et) of the standard cycle Power consumption in off-mode and left-on mode (P o and P I) Annual Water Consumption (litres per year). "Water consumption x litres per year, based on 280 standard cleaning cycles. Actual water consumption will depend on how the appliance is used Drying Efficiency Class. "Drying efficiency class X on a scale from G (least efficient) to A (most efficient) Indication that the "standard programme" relates to the information within the label & fiche and is the most efficient programme in terms of combined energy and water consumption Eco 50 is the standard cleaning cycle to which the information in the label and the fiche relates; this programme is suitable to clean normally soiled tableware, and it is the most efficient programme in terms of combined energy and water consumption. Programme time for the standard cleaning cycle (mins) Duration of the left-on mode (T I) where the dishwasher is fitted with a power management system Noise Level (dB(A)) 44		
Energy efficiency class EU Ecolabel (If applicable) Annual Energy Consumption - "Energy consumption xx kWh per year, based on 280 standard cleaning cycles using cold water fill and the consumption of the low power modes. Actual energy consumption will depend on how the appliance is used" Energy Consumption (Et) of the standard cycle Power consumption in off-mode and left-on mode (P o and P I) Annual Water Consumption (litres per year). "Water consumption x litres per year, based on 280 standard cleaning cycles. Actual water consumption will depend on how the appliance is used Drying Efficiency Class. "Drying efficiency class X on a scale from G (least efficient) to A (most efficient) to A (most efficient) to A (most efficient programme" relates to the information within the label & fiche and is the most efficient programme in terms of combined energy and water consumption Eco 50 is the standard cleaning cycle to which the information in the label and the fiche relates; this programme is suitable to clean normally soiled tableware, and it is the most efficient programme in terms of combined energy and water consumption. Programme time for the standard cleaning cycle (mins) Duration of the left-on mode (T I) where the dishwasher is fitted with a power management system Noise Level (dB(A)) A+		
Energy efficiency class EU Ecolabel (If applicable) Annual Energy Consumption - "Energy consumption xx kWh per year, based on 280 standard cleaning cycles using cold water fill and the consumption of the low power modes. Actual energy consumption will depend on how the appliance is used" Energy Consumption (Et) of the standard cycle Power consumption in off-mode and left-on mode (P o and P I) Annual Water Consumption (litres per year). "Water consumption x litres per year, based on 280 standard cleaning cycles. Actual water consumption will depend on how the appliance is used Drying Efficiency Class. "Drying efficiency class X on a scale from G (least efficient) to A (most efficient) to A (most efficient) to A (most efficient programme" relates to the information within the label & fiche and is the most efficient programme in terms of combined energy and water consumption Eco 50 is the standard cleaning cycle to which the information in the label and the fiche relates; this programme is suitable to clean normally soiled tableware, and it is the most efficient programme in terms of combined energy and water consumption. Programme time for the standard cleaning cycle (mins) Duration of the left-on mode (T I) where the dishwasher is fitted with a power management system Noise Level (dB(A)) A+	Model	DIS15012
Energy efficiency class EU Ecolabel (If applicable) Annual Energy Consumption - "Energy consumption xx kWh per year, based on 280 standard cleaning cycles using cold water fill and the consumption of the low power modes. Actual energy consumption will depend on how the appliance is used" Energy Consumption (E t) of the standard cycle Power consumption in off-mode and left-on mode (P o and P I) Annual Water Consumption (litres per year). "Water consumption x litres per year, based on 280 standard cleaning cycles. Actual water consumption will depend on how the appliance is used Drying Efficiency Class. "Drying efficiency class X on a scale from G (least efficient) to A (most efficient) Indication that the "standard programme" relates to the information within the label and is the most efficient programme in terms of combined energy and water consumption Eco 50 is the standard cleaning cycle to which the information in the label and the fiche relates; this programme is suitable to clean normally soiled tableware, and it is the most efficient programme in terms of combined energy and water consumption. Programme time for the standard cleaning cycle (mins) Duration of the left-on mode (T I) where the dishwasher is fitted with a power management system Noise Level (dB(A)) 48	THOUGH	51313012
Energy efficiency class EU Ecolabel (If applicable) Annual Energy Consumption - "Energy consumption xx kWh per year, based on 280 standard cleaning cycles using cold water fill and the consumption of the low power modes. Actual energy consumption will depend on how the appliance is used" Energy Consumption (E t) of the standard cycle Power consumption in off-mode and left-on mode (P o and P I) Annual Water Consumption (litres per year). "Water consumption x litres per year, based on 280 standard cleaning cycles. Actual water consumption will depend on how the appliance is used Drying Efficiency Class. "Drying efficiency class X on a scale from G (least efficient) to A (most efficient) Indication that the "standard programme" relates to the information within the label and is the most efficient programme in terms of combined energy and water consumption Eco 50 is the standard cleaning cycle to which the information in the label and the fiche relates; this programme is suitable to clean normally soiled tableware, and it is the most efficient programme in terms of combined energy and water consumption. Programme time for the standard cleaning cycle (mins) Duration of the left-on mode (T I) where the dishwasher is fitted with a power management system Noise Level (dB(A)) 48	Canacity	10
EU Ecolabel (If applicable) Annual Energy Consumption - "Energy consumption xx kWh per year, based on 280 standard cleaning cycles using cold water fill and the consumption of the low power modes. Actual energy consumption will depend on how the appliance is used" Energy Consumption (E t) of the standard cycle Power consumption in off-mode and left-on mode (P o and P I) Annual Water Consumption (litres per year). "Water consumption x litres per year, based on 280 standard cleaning cycles. Actual water consumption will depend on how the appliance is used Drying Efficiency Class. "Drying efficiency class X on a scale from G (least efficient) to A (most efficient) Indication that the "standard programme" relates to the information within the label and is the most efficient programme in terms of combined energy and water consumption Eco 50 is the standard cleaning cycle to which the information in the label and the fiche relates; this programme is suitable to clean normally soiled tableware, and it is the most efficient programme in terms of combined energy and water consumption. Programme time for the standard cleaning cycle (mins) Duration of the left-on mode (T I) where the dishwasher is fitted with a power management system Noise Level (dB(A)) 48	Capacity	10
EU Ecolabel (If applicable) Annual Energy Consumption - "Energy consumption xx kWh per year, based on 280 standard cleaning cycles using cold water fill and the consumption of the low power modes. Actual energy consumption will depend on how the appliance is used" Energy Consumption (E t) of the standard cycle Power consumption in off-mode and left-on mode (P o and P I) Annual Water Consumption (litres per year). "Water consumption x litres per year, based on 280 standard cleaning cycles. Actual water consumption will depend on how the appliance is used Drying Efficiency Class. "Drying efficiency class X on a scale from G (least efficient) to A (most efficient) Indication that the "standard programme" relates to the information within the label and is the most efficient programme in terms of combined energy and water consumption Eco 50 is the standard cleaning cycle to which the information in the label and the fiche relates; this programme is suitable to clean normally soiled tableware, and it is the most efficient programme in terms of combined energy and water consumption. Programme time for the standard cleaning cycle (mins) Duration of the left-on mode (T I) where the dishwasher is fitted with a power management system Noise Level (dB(A)) 48	Francia officional class	Δ.
Annual Energy Consumption - "Energy consumption xx kWh per year, based on 280 standard cleaning cycles using cold water fill and the consumption of the low power modes. Actual energy consumption will depend on how the appliance is used" Energy Consumption (E t) of the standard cycle Power consumption in off-mode and left-on mode (P o and P I) Annual Water Consumption (litres per year). "Water consumption x litres per year, based on 280 standard cleaning cycles. Actual water consumption will depend on how the appliance is used Drying Efficiency Class. "Drying efficiency class X on a scale from G (least efficient) to A (most efficient) Indication that the "standard programme" relates to the information within the label & fiche and is the most efficient programme in terms of combined energy and water consumption and water consumption For gramme time for the standard cleaning cycle (mins) Programme time for the standard cleaning cycle (mins) Duration of the left-on mode (T I) where the dishwasher is fitted with a power management system Noise Level (dB(A)) 48	Energy efficiency class	A+
Annual Energy Consumption - "Energy consumption xx kWh per year, based on 280 standard cleaning cycles using cold water fill and the consumption of the low power modes. Actual energy consumption will depend on how the appliance is used" Energy Consumption (E t) of the standard cycle Power consumption in off-mode and left-on mode (P o and P I) Annual Water Consumption (litres per year). "Water consumption x litres per year, based on 280 standard cleaning cycles. Actual water consumption will depend on how the appliance is used Drying Efficiency Class. "Drying efficiency class X on a scale from G (least efficient) to A (most efficient) Indication that the "standard programme" relates to the information within the label & fiche and is the most efficient programme in terms of combined energy and water consumption and water consumption For gramme time for the standard cleaning cycle (mins) Programme time for the standard cleaning cycle (mins) Duration of the left-on mode (T I) where the dishwasher is fitted with a power management system Noise Level (dB(A)) 48		
280 standard cleaning cycles using cold water fill and the consumption of the low power modes. Actual energy consumption will depend on how the appliance is used" Energy Consumption (E t) of the standard cycle Power consumption in off-mode and left-on mode (P o and P I) Annual Water Consumption (litres per year). "Water consumption x litres per year, based on 280 standard cleaning cycles. Actual water consumption will depend on how the appliance is used Drying Efficiency Class. "Drying efficiency class X on a scale from G (least efficient) to A (most efficient) Indication that the "standard programme" relates to the information within the label and is the most efficient programme in terms of combined energy and water consumption A Eco 50 is the standard cleaning cycle to which the information in the label and the fiche relates; this programme is suitable to clean normally soiled tableware, and it is the most efficient programme in terms of combined energy and water consumption. Programme time for the standard cleaning cycle (mins) Duration of the left-on mode (T I) where the dishwasher is fitted with a power management system Noise Level (dB(A)) 48	EU Ecolabel (If applicable)	-
Power consumption in off-mode and left-on mode (P o and P I) O.50 / 0.52 Annual Water Consumption (litres per year). "Water consumption x litres per year, based on 280 standard cleaning cycles. Actual water consumption will depend on how the appliance is used Drying Efficiency Class. "Drying efficiency class X on a scale from G (least efficient) to A (most efficient) Indication that the "standard programme" relates to the information within the label and is the most efficient programme in terms of combined energy and water consumption Eco 50 is the standard cleaning cycle to which the information in the label and the fiche relates; this programme is suitable to clean normally soiled tableware, and it is the most efficient programme in terms of combined energy and water consumption. Programme time for the standard cleaning cycle (mins) Duration of the left-on mode (T I) where the dishwasher is fitted with a power management system Noise Level (dB(A)) 48	power modes. Actual energy consumption will depend on how the appliance is	237
Power consumption in off-mode and left-on mode (P o and P I) O.50 / 0.52 Annual Water Consumption (litres per year). "Water consumption x litres per year, based on 280 standard cleaning cycles. Actual water consumption will depend on how the appliance is used Drying Efficiency Class. "Drying efficiency class X on a scale from G (least efficient) to A (most efficient) Indication that the "standard programme" relates to the information within the label and is the most efficient programme in terms of combined energy and water consumption Eco 50 is the standard cleaning cycle to which the information in the label and the fiche relates; this programme is suitable to clean normally soiled tableware, and it is the most efficient programme in terms of combined energy and water consumption. Programme time for the standard cleaning cycle (mins) Duration of the left-on mode (T I) where the dishwasher is fitted with a power management system Noise Level (dB(A)) 48		
Annual Water Consumption (litres per year). "Water consumption x litres per year, based on 280 standard cleaning cycles. Actual water consumption will depend on how the appliance is used Drying Efficiency Class. "Drying efficiency class X on a scale from G (least efficient) to A (most efficient) Indication that the "standard programme" relates to the information within the label & fiche and is the most efficient programme in terms of combined energy and water consumption Eco 50 is the standard cleaning cycle to which the information in the label and the fiche relates; this programme is suitable to clean normally soiled tableware, and it is the most efficient programme in terms of combined energy and water consumption. Programme time for the standard cleaning cycle (mins) Duration of the left-on mode (T I) where the dishwasher is fitted with a power management system Noise Level (dB(A)) 48	Energy Consumption (E t) of the standard cycle	0.83
Annual Water Consumption (litres per year). "Water consumption x litres per year, based on 280 standard cleaning cycles. Actual water consumption will depend on how the appliance is used Drying Efficiency Class. "Drying efficiency class X on a scale from G (least efficient) to A (most efficient) Indication that the "standard programme" relates to the information within the label & fiche and is the most efficient programme in terms of combined energy and water consumption Eco 50 is the standard cleaning cycle to which the information in the label and the fiche relates; this programme is suitable to clean normally soiled tableware, and it is the most efficient programme in terms of combined energy and water consumption.
