

Tumble Dryers

Supplier's Name or Trade Mark

Model

Rated capacity in kg of cotton laundry for the standard cotton programme at full load

Air vented, condenser or gas fired

Energy efficiency class

Electric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"

Gas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"

Automatic tumble dryer or Non automatic tumble dryer

EU Ecolabel (If applicable)

Energy consumption of the standard cotton programme at full and partial load

Power consumption of the off-mode (P_o) and on the left-on mode (P_l) for the standard cotton programme at full load

The duration of the left-on mode if the appliance is equipped with a power management system

Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton

The weighted programme time (T_t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T_{dry}) and the programme time of the standard cotton programme at partial load (T_{dry 1/2}) in minutes to the nearest minute

If the appliance is a condenser tumble dryer, the condensation efficiency class - "Condensation efficiency class X on a scale from G (least efficient) to A (most efficient)"

If the appliance is a condenser tumble dryer, the average condensation efficiency class - "standard cotton programme at full and partial load"

Answer	Units
LOGIK
