

Product fiche pursuant to Delegated Regulation (EU) no. 1061/2010

Washing Machine	Answer	Units
Supplier's Name or Trade Mark	Samsung	
Model	WW90TA046AE	
Rated category in kg for the standard 60 degree cotton programme at full load or the 40 degree programme at full load whichever is the lower	9 kg	kg
Energy efficiency class	A+++	
EU Ecolabel (If applicable)		
Weighted annual Energy consumption in kWh per year. "Energy consumption x kWh per year, based on 220 standard washing cycles for cotton programmes at 60 degrees and 40 degrees at full and partial load, and the consumption of the low-power modes. Actual energy consumption will depend on how the appliance is used"	130	kWh per year
Energy consumption of the standard 60 degree cotton programme at full load and partial load of the standard 40 degree cotton programme at partial load	60 degrees - 0.66 (full), 0.51 (partial) 40 degrees - 0.51	kWh
Weighted power consumption of the off-mode and of the left-on mode	0.48 (off mode), 5.00 (left-on)	W
Weighted annual water consumption (AW C) in litres per year. " Water consumption X litres per year, based on 220 standard washing cycles for cotton programmes at 60 degrees and 40 degrees at full and partial load. Actual water consumption will depend on how the appliance is used	9400	litres
Spin-drying efficiency class. "Spin drying efficiency class X on a scale from G (least efficient) to A (most efficient)"	A	
Maximum spin speed attained for the standard 60 degree cotton programme at full load or the standard 40 degree programme at partial load, whichever is lower.	1400	rpm
Remaining moisture content attained for the standard 60 degree cotton programme at full load or the standard 40 degree cotton programme at partial load, whichever is greater	44	%
Indication that the "standard 60 degree cotton programme" and the "standard 40 degree cotton programme" are the standard washing programmes to which the information within the label & fiche relates, that these programmes are suitable to clean normally soiled cotton laundry and they are the most efficient programmes in terms of combined energy and water consumption	The Cotton 60 + intensive and Cotton 40 + intensive programs are the 'standard cotton 60 °C program' and the 'standard cotton 40 °C program'. They are suitable to clean normally soiled cotton laundry and they are the most efficient (concerning water and energy consumption) for this type of laundry. In these programs the actual water temperature may differ from the declared temperature. Please run Calibration Mode after the installation.	
The programme time of the "standard 60 degree cotton programme" at full and partial load and the "standard 40 degree cotton programme" at partial load in minutes	60 degrees - 314 minutes (full), 284 (partial) 40 degrees - 284 minutes	minutes
The duration of the left-on mode if the appliance is equipped with a power management system	3	minutes
Noise Level (dB(A)) and spinning phases for the standard 60 degree cotton programme at full load	53 - Wash 74 - Spin	dB(A)
Built-In	Freestanding
