Product fiche pursuant to Delegated Regulation (EU) no. 1061/2010

Model Rated category in kg for the standard 60 degree cotton programme at full load or the 40 degree programme at full load whichever is the lower Energy efficiency class A+++ EU Ecolabel (If applicable) Weighted annual Energy consumption in kWh per year. "Energy consumption x kWh per year, based on 220 standard washing cycles for cotton programmes at 60 degrees and 40 degrees at full and partial load, and the consumption of the low-power modes. Actual energy consumption will depend on how the appliance is used" Energy consumption of the standard 60 degree cotton programme at full load and partial load of the standard 40 degree cotton programme at partial load Weighted power consumption of the off-mode and of the left-on mode 0,5 - 8,0 Weighted annual water consumption (AW C) in litres per year. "Water consumption X litres per year, based on 220 standard washing cycles for cotton programmes at 60 degrees at full and partial load. Actual water consumption will depend	Washing Machine	Answer
Rated category in kg for the standard 60 degree cotton programme at full load or the 40 degree programme at full load whichever is the lower Energy efficiency class A+++ EU Ecolabel (If applicable) Weighted annual Energy consumption in kWh per year. "Energy consumption x kWh per year, based on 220 standard washing cycles for cotton programmes at 60 degrees and 40 degrees at full and partial load, and the consumption of the low-power modes. Actual energy consumption will depend on how the appliance is used" Energy consumption of the standard 60 degree cotton programme at full load and partial load of the standard 40 degree cotton programme at partial load Weighted power consumption of the off-mode and of the left-on mode O,5 - 8,0 Weighted annual water consumption (AW C) in litres per year. "Water consumption X litres per year, based on 220 standard washing cycles for cotton programmes at 60 degrees at full and partial load. Actual water consumption will depend	Supplier's Name or Trade Mark	Hotpoint
Rated category in kg for the standard 60 degree cotton programme at full load or the 40 degree programme at full load whichever is the lower Energy efficiency class A+++ EU Ecolabel (If applicable) Weighted annual Energy consumption in kWh per year. "Energy consumption x kWh per year, based on 220 standard washing cycles for cotton programmes at 60 degrees and 40 degrees at full and partial load, and the consumption of the low-power modes. Actual energy consumption will depend on how the appliance is used" Energy consumption of the standard 60 degree cotton programme at full load and partial load of the standard 40 degree cotton programme at partial load Weighted power consumption of the off-mode and of the left-on mode O,5 - 8,0 Weighted annual water consumption (AW C) in litres per year. "Water consumption X litres per year, based on 220 standard washing cycles for cotton programmes at 60 degrees at full and partial load. Actual water consumption will depend		
40 degree programme at full load whichever is the lower Energy efficiency class A+++ EU Ecolabel (If applicable) Weighted annual Energy consumption in kWh per year. "Energy consumption x kWh per year, based on 220 standard washing cycles for cotton programmes at 60 degrees and 40 degrees at full and partial load, and the consumption of the low-power modes. Actual energy consumption will depend on how the appliance is used" Energy consumption of the standard 60 degree cotton programme at full load and partial load of the standard 40 degree cotton programme at partial load Weighted power consumption of the off-mode and of the left-on mode O,5 - 8,0 Weighted annual water consumption (AW C) in litres per year. "Water consumption X litres per year, based on 220 standard washing cycles for cotton programmes at 60 degrees at full and partial load. Actual water consumption will depend	Model	RPD10457J
40 degree programme at full load whichever is the lower Energy efficiency class A+++ EU Ecolabel (If applicable) Weighted annual Energy consumption in kWh per year. "Energy consumption x kWh per year, based on 220 standard washing cycles for cotton programmes at 60 degrees and 40 degrees at full and partial load, and the consumption of the low-power modes. Actual energy consumption will depend on how the appliance is used" Energy consumption of the standard 60 degree cotton programme at full load and partial load of the standard 40 degree cotton programme at partial load Weighted power consumption of the off-mode and of the left-on mode O,5 - 8,0 Weighted annual water consumption (AW C) in litres per year. "Water consumption X litres per year, based on 220 standard washing cycles for cotton programmes at 60 degrees at full and partial load. Actual water consumption will depend		
Energy efficiency class A+++ EU Ecolabel (If applicable) Meighted annual Energy consumption in kWh per year. "Energy consumption x kWh per year, based on 220 standard washing cycles for cotton programmes at 60 degrees and 40 degrees at full and partial load, and the consumption of the low-power modes. Actual energy consumption will depend on how the appliance is used" Energy consumption of the standard 60 degree cotton programme at full load and partial load of the standard 40 degree cotton programme at partial load Weighted power consumption of the off-mode and of the left-on mode O,5 - 8,0 Weighted annual water consumption (AW C) in litres per year. "Water consumption X litres per year, based on 220 standard washing cycles for cotton programmes at 60 degrees at full and partial load. Actual water consumption will depend		10kg
EU Ecolabel (If applicable) Weighted annual Energy consumption in kWh per year. "Energy consumption x kWh per year, based on 220 standard washing cycles for cotton programmes at 60 degrees and 40 degrees at full and partial load, and the consumption of the low-power modes. Actual energy consumption will depend on how the appliance is used" Energy consumption of the standard 60 degree cotton programme at full load and partial load of the standard 40 degree cotton programme at partial load Weighted power consumption of the off-mode and of the left-on mode Weighted annual water consumption (AW C) in litres per year. "Water consumption X litres per year, based on 220 standard washing cycles for cotton programmes at 60 degress and 40 degrees at full and partial load. Actual water consumption will depend	40 degree programme at full load whichever is the lower	
EU Ecolabel (If applicable) Weighted annual Energy consumption in kWh per year. "Energy consumption x kWh per year, based on 220 standard washing cycles for cotton programmes at 60 degrees and 40 degrees at full and partial load, and the consumption of the low-power modes. Actual energy consumption will depend on how the appliance is used" Energy consumption of the standard 60 degree cotton programme at full load and partial load of the standard 40 degree cotton programme at partial load Weighted power consumption of the off-mode and of the left-on mode Weighted annual water consumption (AW C) in litres per year. "Water consumption X litres per year, based on 220 standard washing cycles for cotton programmes at 60 degress and 40 degrees at full and partial load. Actual water consumption will depend	Enorgy officionaly class	A
Weighted annual Energy consumption in kWh per year. "Energy consumption x kWh per year, based on 220 standard washing cycles for cotton programmes at 60 degrees and 40 degrees at full and partial load, and the consumption of the low-power modes. Actual energy consumption will depend on how the appliance is used" Energy consumption of the standard 60 degree cotton programme at full load and partial load of the standard 40 degree cotton programme at partial load Weighted power consumption of the off-mode and of the left-on mode O,5 - 8,0 Weighted annual water consumption (AW C) in litres per year. "Water consumption X litres per year, based on 220 standard washing cycles for cotton programmes at 60 degrees and 40 degrees at full and partial load. Actual water consumption will depend	Effergy efficiency class	Аттт
Weighted annual Energy consumption in kWh per year. "Energy consumption x kWh per year, based on 220 standard washing cycles for cotton programmes at 60 degrees and 40 degrees at full and partial load, and the consumption of the low-power modes. Actual energy consumption will depend on how the appliance is used" Energy consumption of the standard 60 degree cotton programme at full load and partial load of the standard 40 degree cotton programme at partial load Weighted power consumption of the off-mode and of the left-on mode O,5 - 8,0 Weighted annual water consumption (AW C) in litres per year. "Water consumption X litres per year, based on 220 standard washing cycles for cotton programmes at 60 degrees and 40 degrees at full and partial load. Actual water consumption will depend	FU Ecolabel (If applicable)	n/a
per year, based on 220 standard washing cycles for cotton programmes at 60 degrees and 40 degrees at full and partial load, and the consumption of the low-power modes. Actual energy consumption will depend on how the appliance is used" Energy consumption of the standard 60 degree cotton programme at full load and partial load of the standard 40 degree cotton programme at partial load Weighted power consumption of the off-mode and of the left-on mode Weighted annual water consumption (AW C) in litres per year. "Water consumption X litres per year, based on 220 standard washing cycles for cotton programmes at 60 degrees and 40 degrees at full and partial load. Actual water consumption will depend		1,7,0
and 40 degrees at full and partial load, and the consumption of the low-power modes. Actual energy consumption will depend on how the appliance is used" Energy consumption of the standard 60 degree cotton programme at full load and partial load of the standard 40 degree cotton programme at partial load Weighted power consumption of the off-mode and of the left-on mode 0,5 - 8,0 Weighted annual water consumption (AW C) in litres per year. "Water consumption X litres per year, based on 220 standard washing cycles for cotton programmes at 60 degrees and 40 degrees at full and partial load. Actual water consumption will depend	Weighted annual Energy consumption in kWh per year. "Energy consumption x kWh per year, based on 220 standard washing cycles for cotton programmes at 60 degrees	190kWh
Actual energy consumption will depend on how the appliance is used" Energy consumption of the standard 60 degree cotton programme at full load and partial load of the standard 40 degree cotton programme at partial load Weighted power consumption of the off-mode and of the left-on mode O,5 - 8,0 Weighted annual water consumption (AW C) in litres per year. "Water consumption X litres per year, based on 220 standard washing cycles for cotton programmes at 60 degreess and 40 degrees at full and partial load. Actual water consumption will depend		
partial load of the standard 40 degree cotton programme at partial load Weighted power consumption of the off-mode and of the left-on mode Weighted annual water consumption (AW C) in litres per year. "Water consumption X litres per year, based on 220 standard washing cycles for cotton programmes at 60 degress and 40 degrees at full and partial load. Actual water consumption will depend	Actual energy consumption will depend on how the appliance is used"	
partial load of the standard 40 degree cotton programme at partial load Weighted power consumption of the off-mode and of the left-on mode Weighted annual water consumption (AW C) in litres per year. "Water consumption X litres per year, based on 220 standard washing cycles for cotton programmes at 60 degress and 40 degrees at full and partial load. Actual water consumption will depend		0.00011111
Weighted annual water consumption (AW C) in litres per year. "Water consumption X 12810 litres per year, based on 220 standard washing cycles for cotton programmes at 60 degress and 40 degrees at full and partial load. Actual water consumption will depend	partial load of the standard 40 degree cotton programme at full load and	0,9/3kWh
Weighted annual water consumption (AW C) in litres per year. "Water consumption X litres per year, based on 220 standard washing cycles for cotton programmes at 60 degress and 40 degrees at full and partial load. Actual water consumption will depend		
litres per year, based on 220 standard washing cycles for cotton programmes at 60 degress and 40 degrees at full and partial load. Actual water consumption will depend	Weighted power consumption of the off-mode and of the left-on mode	0,5 - 8,0
litres per year, based on 220 standard washing cycles for cotton programmes at 60 degress and 40 degrees at full and partial load. Actual water consumption will depend	W I I	12010
degress and 40 degrees at full and partial load. Actual water consumption will depend		12810

Spin-drying efficiency class. "Spin drying efficiency class X on a scale from G (least B	Spin-drying efficiency class. "Spin drying efficiency class X on a scale from G (least	В
	efficient) to A (most efficient)"	

Maximum spin speed attained for the standard 60 degree cotton programme at full load or the standard 40 degree programme at partial load, whichever is lower.	1400 rpm
Remaining moisture content attained for the standard 60 degree cotton programme at full load or the standard 40 degree cotton programme at partial load, whichever is greater	53%
Indication that the "standard 60 degree cotton programme" and the "standard 40 degree cotton programme" are the standard washing programmes to which the information within the label & fiche relates, that these programmes are suitable to clean normally soiled cotton laundry and they are the most efficient programmes in terms of combined energy and water consumption	n/a
The programme time of the "standard 60 degree cotton programme" at full and partial load and the "stand 40 degree cotton programme" at partial load in minutes	340 mins
The duration of the left-on mode if the appliance is equipped with a power management system	30 mins
Noise Level (dB(A)) and spinning phases for the standard 60 degree cotton programme at full load	76 dB
Built-In	Freestanding
